DAVID A. JOLLY & CO.

WHOLESALE AND RETAIL

FAMILY GROCERS,

WINE, SPIRIT, AND GENERAL MERCHANTS.

We desire to intimate that in order to meet the growing exigencies of our business, we have lately built substantial stone additions to our former premises.

At the urgent request of our numerous customers, we have added to our other branches of business, that of

DRAPERY, CROCKERY, & IRONMONGERY.

We would further notify that, having engaged a Buyer in connection with our business to select special lines consigned from the Home and Melbourne markets, we will in future be in a position to offer such superior advantages to our customers as will not fail to ensure a continuance of their liberal patronage, and, more especially, will command the attention and confidence of the Trade, Runholders, and Large Buyers.

DAVID A. JOLLY & CO.

Our GROCERY STOCK comprises:

Teas, of excellent flavour, in chests, half-chests, and boxes
Coffee, from the pure bean, ground on the premises
Cocoa, Chocolate, of the best brands

Grand Central Quartz (Bendigo)
Lucknow
Colonial Bank
National Insurance.

A New Beer-producer.

An evil future is impartially preparing for both the apostles of the Permissive Bill and the great public-house interest. Science has, with its wonted absence of prejudice, just struck each side of the question a knock-down blow. A Frankfort journal reports that a chemist of that city has lately given a public exhibition of his ability to make delicious beer at a moment's notice out of nothing but a small quantity of brownish powder and a pail of water. It is said that certain experts present, some of them brewers themselves, could not distinguish between the beverage thus made on the spot and that drawn from the orthodox cask. The new beer powder can be sold at 5d an ounce, and one ounce is sufficient to produce a gallon of beer. And the process is so simple! Take some pure cold water, put the powder into it, stir well, and the beer is ready. The inventor moreover declares that by a slight change in his ingredients he can alter the quality of the beer, and produce any kind that may be desired. Shortly therefore a great revolution may be expected. With a few grains of Bass in one pocket, and a pinch or two of Ind and Coope in the other, the thirsty but not even *bona fide* traveller of the future will calmly make for the nearest pump, and there contentedly drink confusion alike to Sir Wilfred Lawson and to the licensed victualler.—*Pull Mall Gazette*.

Holloway's Pills.—Nervousness and want of Energy.—When first the nerves feel unstrung, and listlessness supplants energy, the time has come to take some such alternative as Holloway's Pills to restrain a disorder from developing itself into a disease. These excellent Pills correct all irregularities and weaknesses. They act so kindly, yet so energetically on the functions of digestion and assimilation, that the whole body is revived, the blood rendered richer and purer, while the muscles become firmer and stronger, and the nervous and absorbent systems are invigorated. These Pills are suitable for all ages and all ages. They have a most marvellous effect on persons who are out of condition; they soon rectify whatever is in fault, restore strength to the body and confidence to the mind.

MUNICIPAL COUNCIL.

The ordinary meeting of Town Council took place in the Town Hall on Friday evening. Present—The Mayor, Crs Aitken, Arndt, Brown and Talboys.

Mr Marshall, acting Town Clerk in the absence of Mr Colclough, read minutes of previous meeting, which, owing to certain omissions therein, were not confirmed.

CORRESPONDENCE

outward was then read and approved as follows:—Letter to Colonial Bank manager, declining to accede to endorsement of coupons; to Provincial Under-Secretary, denying the allegation of Mr Marsh, that the Council encouraged encroachment on Block IX.

Inward correspondence consisted of letter and telegram from engineers relating to waterworks; copy of rules adopted by Dunstan Board of Wardens, forwarded by Mr R. B. Thomson; copy of contract for conveyance of water pipes; application from E. Charnock, requesting to be allowed to withdraw from lease of section purchased by him at auction; from D. MacKellar, making application to lease certain Municipal sections.

With reference to Mr Thomson's letter and enclosure of regulations, it was decided to ask that gentleman to attend a meeting of the local Board of Wardens on a date to be fixed.

Regarding Mr Charnock's application it was resolved—on motion by Crs Arndt and Aitken—That Mr Charnock be written to informing him that he will be released from all obligation as to the lease on his paying expenses incurred in putting the ground up to auction.

The Clerk was instructed to inform Mr MacKellar that it was the Council's intention to place the Municipal reserves in the market by auction at an early date.

ACCOUNTS.

The following accounts were passed for payment: J. Baker, services as dayman, £24 1s; Law, Somner and Co., seeds, £8 10s 10d; J. Towan, sowing seeds, £3. An account from Messrs Parke and Curle £395 7s 4d, pipes, was referred to the Finance Committee.

CORPORATION RESERVES.

On the motion of Cr Brown, it was resolved to offer the various Municipal reserves at auction on Friday, November 12.

PUBLIC WORKS.

Tenders were then opened for the formation of pathway and kerbing from corner of Innes-street to Bridge. The offers were three in number, as under:—

| | |
|-------------------|---------|
| James Scott | £45 0 0 |
| R. Inglis and Co. | 64 10 0 |
| J. Drummy | 33 15 0 |

Mr Drummy's tender was accepted.

Cr Aitken, on behalf of Public Works Committee, reported that having consulted with Mr Fergus as to levels of Murray-street, that gentleman expressed the opinion that it would be unwise to expend any money on the streets rising to the terrace until the permanent levels had been taken so as to make the thoroughfares available for traffic, which was not the case under the levels at present existing.

It was resolved, before taking any works in hand, to request Mr Fergus to send in to the Council in writing suggestions as to the levels of the cross streets.

WATERWORKS.

Cr Arndt remarked that as the pipes were now being delivered in town, he thought no time should be lost in proceeding with the laying of them and he therefore begged to move—That tenders be called for the laying of pipes, in accordance with plans and specifications from Farr and Oliver. Tenders to close on October 29th.—Seconded by Cr Aitken, and carried.

BLOCK IX. QUESTION.

The advisability of proceeding with Cr Talboys motion was then considered; but, owing to the somewhat late hour, and non-attendance of two members, it was thought best to adjourn the discussion for a week. Respecting the laxity of certain Councillors in attending to their Municipal duties some pretty strong language was used by members present, who appeared disinclined to bear the burden of work while others reaped equal honors but shirked the work. One member remarked that it ill became old Councillors to absent themselves from meetings; considering they had left, by their former actions, a legacy of difficulties for new members to contend with. So unanimous was the feeling on this subject that a minute was ordered to be entered to that effect.—That the Council desire to express the opinion that Councillors by absenting themselves from meetings show great disrespect to the Council and also retard the transaction of important business.

NOTICE OF MOTION.

Cr Aitken gave notice of motion for next meeting.—That no assessment of the houses and tenements on the south side of Melmore Terrace, from the corner of Murray-street to Achille-street or Stuart's corner, be made for the financial year 1875-6.

The meeting then adjourned till Friday next.

Robt. Hunter, a She Valley farmer, was found guilty at the Supreme Court sittings in Dunedin of setting fire to a hut occupied by a party of Chinamen, whom he wished to drive off his property. He was ordered to be imprisoned for six months, with hard labour—his Honor remarking that, while he was willing to give the fullest consideration to the Jury's recommendation to mercy, it was necessary to inflict such punishment upon the prisoner as would act as a caution to him and others not to take the law into their own hands.

ARROWTOWN.

(FROM OUR OWN CORRESPONDENT.)

October 18, 1875.

After two or three stoppages of the machinery owing to the breaking down of fluming of the water race, the Phoenix tribute company cleaned up when 40 tons of stuff had been put through, the yield from which was 223 ounces. This quartz is considered the poorest in the paddock, a great deal of it having been obtained previously to striking the best stone. The crushing will be continued until about 400 tons are dealt with; the quicksilver will be cleared every week, and in a few days a new water supply will be finished, so that delay from the breaking of the old fluming will be obviated. No very active work on any of the Skippers reef claims will be effected until the total result of the Phoenix crushing is known. Southberg and party who are on good stone will however keep their battery going. Mr Southberg has also started cultivating a 200 acre paddock in the neighborhood, which will probably be the highest bit of land in the Province so utilized, but will do much to cheapen the cost of horse feed, potatoes, &c., in the locality. The Skippers reefs are among the highest workings we have, and discovery cannot go much above them, as the perpetual snow of the Southern Alps will form an obstacle not easily overcome. No doubt if the yields from the Phoenix continue good these mountains will again be the scenes of enterprise and activity of no ordinary description, for they offer advantages above most other quartz localities in having abundance of timber and water power; while there are known reefs of considerable size, from which a yield of about half an ounce per ton can be depended upon.

A sluicing party opposite to Maori Point, Shotover, Scriver and party, have washed up after twelve months running, the yield being over 200 ounces, the number of men employed being three.

Considerable excitement has ruled here during the week owing to the quartz discovery at the 12-Mile, Arrow, reported in my last, and which by the way I noticed failed to reach the *Arrow Observer*. A number of people from the Arrow have been up to look at it, and as much as £100 has been offered for a share in the reef, which is described as showing beautiful stone. It is an off-shoot from a much larger reef, but in which very slight prospects could be raised. Claims have been taken up on this new discovery for a mile right up to the snow.

For the information of your Cardrona correspondent I may state that the claim to which I referred in a previous letter was the "Mile" claim granted to Messrs Mackin and Bond, and which was (as well as I can remember) once advertised as the "Cardrona Valley Great Extended."

A young lad here, Master Jenkins, accidentally swallowed a two-shilling piece today. Happily he does not seem much injured by the accident, as yet at any rate.

The Dramatic Club played the Octoroon last Friday night to a full house, for the benefit of the Library. The takings were over seventeen pounds, very good these times. Every one seemed gratified at the performance, which was indisputably a most successful one in every respect, and highly creditable to the Club. It is proposed to repeat the play on the 9th proximo, the Prince of Wales' Birthday, the performance to be preceded by a picnic at Butel's farm, which project seems in high favor at present, as cricketing, dancing, and other amusements will be arranged for.

Two auction sales have been held by Messrs D. Powell and Co., during last week, consisting of freehold property, household furniture, cattle, horses, &c. Fair prices were realized, except in the case of the freeholds, which did not find purchasers, the bidding not reaching the reserve fixed upon them.

MAGISTRATE'S COURT.

FRIDAY, OCTOBER 15, 1875.

(Before W. Lawrence Simpson, Esq., R.M.)

John Kelly was fined 20s for drunkenness, with the alternative of 48 hours' imprisonment. Accused had been dismissed on a similar charge the previous Tuesday.

CIVIL CASES.

G. W. Goodger v. J. Emmerson.—Claim to recover £11 15s 6d, debt. Plaintiff non-suited, with costs.

J. Scott v. R. Robertson.—£11 7s 4d, goods. New summons to issue free of charge.

SATURDAY, OCTOBER 16, 1875.

(Before D. A. Jolly, Esq., Mayor.)

Yung Gin, charged with lunacy, was remanded to Clyde Gaol for examination.

WARDEN'S COURT.

FRIDAY, OCTOBER 15, 1875.

(Before W. L. Simpson, Esq., Warden.)

APPLICATIONS.

Extended Claims.—A. Cameron, 1 acre, head Smith's gully—granted. A. Aitken and others, 4 acres, Pipeclay Terrace—adjourned.

Protection.—A. Wool, 90 days, claim, Bailey's gully; E. Bracegirdle and others, 60 days, to test reef claim, Bendigo; J. Besanko and others, and Logan and others, 60 days, to test reef claim, Bendigo—granted.

Pail Races.—W. Smart and another, from claim, Bailey's. Objected to by Woods and party, but afterwards arranged, and the application granted. Thomas Aitken and party, from Pipeclay gully. Park and others objected, but applicants agreeing to their requirements, certificate granted.

Roadway.—John Marsh, for Eureka Company, 1½ miles from claim to battery—Postponed.

WANTED, a smart Lad, able to milk and to make himself generally useful. Apply immediately at Glen Nevis Station. **W. W. MASTERS.**

WANTED, for a Home Station, a **MARRIED COUPLE**. Husband as Shepherd; Wife as Cook and Housekeeper. Apply to **H. J. THOMSON**, Wanaka West.

A guarantee given for £4 4s.
W. W. MASTERS.

NOTICE.
I hereby give notice that I have made application to the Waste Lands Board to purchase Sections 1 and 2, Lower Wanaka District, containing 240a. 2r. 2p., held under Agricultural Lease No. 139c.
Objections (if any) to this application must be lodged at the District Land Office, Clyde, on or before **THURSDAY**, the 4th day of November, 1875.
HENRY CAMPBELL,
By his attorney, **JAMES McLEAN.**

CROMWELL LODGE.
LOCAL ADDRESS.
Will be delivered by Bro. LEECE in the Lodge Room on Monday Evening, 25th inst.
Members are requested to attend.
G. B. AITKEN, W.C.T.
ALTA QUARTZ MINING COMPANY, Registered.
NOTICE.
All Claims against the above Company must be lodged with me on or before the 1st November current, or they will not be recognised.
GEORGE FACHE,
Liquidator.
Clyde, Oct. 19, 1875.

ELIZABETH QUARTZ MINING CO., Registered.
EXTRAORDINARY MEETING.
An Extraordinary Meeting of the Elizabeth Quartz Mining Company, Registered, is hereby convened, and the same will be held at the Company's Office, Cromwell, on **SATURDAY**, 30th October, 1875, at 4 p.m.
Business: To increase the capital of the Company to such amount as may be determined upon, as provided by the "Mining Companies Act 1872," section 11, clause 44.
CHAS. COLCLOUGH,
Manager.
4th October, 1875.

TENDERS.
Tenders are required for **BUILDING** a **STONE KITCHEN** at Mr **STUART'S** Victoria Hotel, Cromwell.
Plans and Specifications can be seen at the Victoria Hotel.
Tenders to be sent in on or before Oct. 23.
The lowest or any tender not necessarily accepted.

SMALL PROFITS AND QUICK RETURNS.
SUMMER GOODS.
SUMMER GOODS.
To arrive on or about the 23rd inst.
R. ISAACS
Begg to inform the inhabitants of this District that he has purchased a splendid stock of **SUMMER DRAPERY**, which will be sold at his usual reasonable prices.

LADIES' COSTUMES & DRESSES.
In great variety.
LADIES' TRIMMED HATS.
In the latest styles and endless variety.
MEN'S & CHILDREN'S CLOTHING.
BOOTS & SHOES, &c., &c.
Please defer your purchases until the Stock arrives.
The above motto will be strictly carried out.

MR HENRY SMYTHIES and **Mr HARRY W. SMYTHIES** have entered into Partnership, and intend to carry on business in **DUNEDIN**, under the style of **SMYTHIES & SON**
as
ARBITRATORS, LAND BROKERS, LAND AGENTS, FINANCIAL AGENTS, STOCK BROKERS, AND SURVEYORS.

Especially Notice is called to the Arbitration Branch, on account of the peculiar qualifications possessed by Mr Henry Smythies, as having had over forty-nine years' experience in the law, and an intimate acquaintance with all Colonial interests during a residence of twenty-five years in New Zealand. The advantages of arbitration comprise (*inter alia*) a speedy and inexpensive settlement of disputes, upon the real merits rather than upon the technicalities and accidents of the case, and also a considerable amelioration of personal ill-will.

Parties desirous of availing themselves of Messrs Smythies and Son's services may apply to them personally, when all preliminaries will be prepared, and the matter completed in their office. Solicitors who may advise their clients to submit their cases for arbitration to Messrs Smythies and Son will be received with courtesy, and thanked for their support.

The Survey Department will be more especially under the care of Mr Harry W. Smythies, who for several years practised as a surveyor under the General Government.

The Land Agency, Land Broker, Stock Broker, and Financial Departments will be superintended mutually.
N.B.—All business with the Waste Land Board conducted.

Temporary Office:
PRINCES-STREET,
(Next door to Burton Bros.)

CORPORATION OF CROMWELL.
CONTRACT for PIPE-LAYING.
TENDERS will be received at my office until **FRIDAY**, 29th October, for Laying the Corporation Water Mains, in accordance with plans and specifications to be seen at my office.
CHAS. COLCLOUGH,
Secretary to Waterworks.

CORPORATION OF CROMWELL.
SALE BY AUCTION.
LEASE OF TOWN SECTIONS.
The Undersigned is instructed to submit to public competition at the Town Hall on **FRIDAY**, November 12, at 2 o'clock sharp, The Lease for 14 years from 1st March, 1874, of a number of valuable Corporation Sections.
Conditions at sale.
CHAS. COLCLOUGH,
Auctioneer.

FAT CATTLE.
FAT CATTLE.
THURSDAY, 21st OCTOBER, 1875,
at Goodger's Yards.
THE Undersigned will Sell by Auction at Goodger's Yards, Cromwell, on the above date, a Draft of about 50 head Prime Fat and well-conditioned Store Cattle.
Without the slightest reserve.
CHAS. COLCLOUGH,
Auctioneer.

Just Arrived.
IMPORTANT NOTICE
TO
MINING COMPANIES & OTHERS.
D. A. JOLLY & CO.
Have on hand and for sale a quantity of **LITHOFRACTEUR**, for blasting purposes.

The merits of this new explosive agent have now been thoroughly tested, and it is acknowledged to have no equal for effectiveness and labor-saving qualities.
DAVID A. JOLLY & CO.,
Cromwell.

COMMERCIAL HOTEL,
BUCKINGHAM-STREET, ARROWTOWN.
HENRY GRAHAM ... Proprietor.
H. Graham, having opened the above Hotel assures travellers and the public generally that their comfort and convenience will be strictly attended to. Families visiting Arrowtown will find every accommodation, and receive the best attention at this new and commodious Hotel. The house comprises a suite of private apartments, sample rooms, and commercial room, making the Commercial Hotel one of the best and most comfortable Hotels in the district.
There is also first-class Stabling and paddock accommodation.

H. G. still continues to carry on the business of **STOREKEEPING,** Wholesale and Retail.
FIRST-CLASS BARGAINS FOR CASH.

SADDLERY! SADDLERY!
HUGH FRASER & CO.,
(Late Fraser & Granger, of Dunedin.)
Beg most respectfully to inform the inhabitants of Cromwell and surrounding districts that they have commenced the above business in the premises lately occupied by Mr **SANSOM**, Saddler, where every description of **SADDLERY** and **HARNESS** will always be on hand.
Repairs will be done with despatch, and in a workmanlike manner.

Moderation in prices will be our motto.
A large assortment of first-class goods is now landing at Dunedin, and will be to hand in a few days, when inspection will be respectfully invited.

Next to Goodger's Commercial Hotel, Cromwell.

PRICES CURRENT.—The following quotations made by **W. TALBOYS** in *Clothing*:—Colonial Tweed Trowsers, 13/6; Trowsers and vest 25/; Moles, 8/6; Knitted Drawers, 6/6; Flannels, 6/6; Crimeans, 7/6; Plaid and Tweed Shirts, 8/6. *Drapery*:—Winceys, 1/; All-wool Plaids, 2/; French Merinos, 2/6; Fancy Dresses, 13/6; Flannel, 1/9; Holland, 1/10; Calico, 7/4; Blankets, 17/6. *Boots*:—Watertights, 18/6; Elastic Sides, 14/6; Boys' Nailed Lace-up, 8/6; Ladies' Boots, 6/; Children's, 5/—**W. TALBOYS**, London House, Cromwell.

R. A. Brown, E.S.
W. Howe, P.G.
E. Amore, P.G.
W. Bennett, Quartermaster.
Gilbert M'Clure, Carriekton.
Thomas Wood, Lowburn.
Dancing to commence at 9 o'clock.
German Band in attendance.

Cromwell Argus,
AND NORTHERN GOLD-FIELDS GAZETTE.
CROMWELL: WEDNESDAY, OCT. 20, 1875.

At last there seems an absolute certainty of the Coal Creek water being brought on to the Carrick Range this summer. From the initiation of this scheme, a fatality seems to have hung over the Company formed to carry it out,—perhaps in a great measure due to the manner of its first formation. As early as 1865, a private party, with considerable means at its disposal, roughly surveyed the line of race, but the Duffer's Saddle was to them an insurmountable obstacle. The ground at the top of the range, which had been proved and which it was known would pay exceedingly well, required the water to be lifted at such a height that to their minds this saddle entirely prevented it. Nothing further was done at this time, but the idea remained with the Bannockburn people, and meetings were called more than once with the view of encouraging a combination of working miners to carry out the project. But nothing could be done; the estimated cost reached too high a sum, and the lack of money was always the obstacle. In 1871, Mr C. E. HAUGHTON came on a tour through the Goldfields on behalf of the General Government, a large sum of money having been voted to assist in supplying water to mining districts throughout the Colony; and from the Bannockburn a deputation was sent to meet him at Cromwell, to bring under his notice this matter of the Coal Creek water supply and its deep importance to the mining interests of the district. The thing had by this time become well ventilated, through the Press and in other ways, and so much was public attention directed to it that a company was formed, a provisional directory appointed, and prospectuses issued,—the company being named the Carrick Range Water Supply Co. But the prospectus announced that 1000 paid-up shares were reserved by the promoters of the company as "promoters' shares"; and perhaps it is not too much to say that here was disclosed the rock on which the whole thing has been wrecked. The ordinary miner fails to see why a few promoters in a thing of this sort should be allowed so large a share of spoil, and is not to be blamed if, as in this case, he fights shy, and fails to lend a helping hand. After a short time, as shares were not applied for, the promoters saw the mistake, and announced afresh that no shares would be reserved,—those of them who would not throw up the original grant withdrawing from the concern entirely. But it was now too late; the mischief was done; and hardly a miner in the Bannockburn district took a share in the company. However, sufficient shares were taken up to justify the beginning of operations; and since 1872 the company has been carrying on the work under the disadvantage of being in a chronic state of impotency, and the necessary amount of vigor has never been imparted to the undertaking. In 1874 an application was made to the Government for a loan under the Public Works Act, and £4000 was granted. Of this sum, about £2250 had been received by the company up to the time when the capital represented by the shares taken had been all called up, and they were compelled to apply for funds to complete the work. More than one capitalist in the Cromwell district would have taken the thing over and carried it to a completion, had not the Government mortgage stood in the way. However, during the present session of the Assembly, the matter of the completion of the race by the Government has been most strenuously urged by Messrs MACANDREW and PYKE, who have induced the Cabinet to place the sum of £5000 on the Estimates to complete the work. Pending the voting of this money, the Government sent Mr Lowe, railway engineer from Oamaru with an assistant, to report as to the quantity of work already done, and to estimate the cost of what remains to be done, as well as to give an opinion about the market, so to speak, for

the water, the amount of alluvial ground likely to be worked by it, the crushing machines it will supply, &c. These gentlemen came to Cromwell last Monday week, and at once proceeded to the race, going carefully over every portion of it. About thirteen miles have been constructed, but the remaining portion, about five miles, is by far the more difficult and expensive. Tunnelling to a considerable extent will be required, and there will be some very heavy building needed going round the Coal Creek bluffs. About a mile here will be more difficult of construction than any water-race hitherto cut in Otago. Still, Mr Lowe's calculation is, we are informed, within the sum placed on the Estimates. It seems a rumor had reached the Government that a mistake had been made in the levels, and that the water could not be got over the Duffer's Saddle. But when it was seen that the water was at the time of the visit running from miles beyond the Saddle, and when it was discovered that the levels were perfectly correct, then the matter assumed a very different aspect, and there seems no reason to doubt that as soon as Mr Lowe has reported to the Government, the work will be pushed on most vigorously. The bringing in of such a quantity of water as this race will carry will completely revolutionise the Bannockburn and Carrick Range districts. An immense amount of payable ground is known to exist, which with a supply of water will profitably support a population of at least two hundred men. Even now, new ground is being continually opened, which with the present water supply pays handsomely; and it is not too much to say that the delivery of the Carrick Range Company's water will increase the yield of gold in this district fully one fourth.

Hey Presto! change again! Such seems to be the leading characteristic of the Otago postal department. Within the last few months no less than three alterations in the days of arrival and departure of the mails. As a consequence, every body is in a happy state of fog, which is intensified by the feeling that there is no saying when another variety in the programme will be presented. Indeed, we hear that in a week or two more further "improvements" will be effected. It is said to be the intention to run the mail right through from Bengerburn to Queenstown in one day. This we will be glad to see accomplished, and rejoice to notice a desire to render the service as complete and effective as possible. But for goodness sake let certain days and times be fixed and adhered to, so that the public can depend thoroughly on this all-important branch of the public service. As it is now, everything is in a jumble, mails are delivered anyhow, and generally, postal matters are uncomfortably bewildering. What adds to the confusion is that with the main line of service all the local mails undergo a corresponding change, much to the inconvenience of the commercial public. For ourselves, we may say that to meet the last alteration, and so that our readers should have their papers early after issue, we shifted the day of publication, and now we are in a worse fix than ever as regards our Cardrona and Wanaka constituents. However, no doubt things will soon settle permanently, and until we see some indication that way we think our supporters will agree that it would not be wise to adopt the present weather-cock policy of the Otago postal department.

The present and last session of the existing Parliament closes to-morrow.

"Observer's" report of Mr Inspector Taylor's examination of the Gorge School is crowded out this issue.

Report of Municipal Council proceedings, Arrow letter, and other matter will be found on the third page.

Jockey Club members are invited to meet at Heron's White Hart Hotel, on Friday night, to consider important business.

The Dunedin gasworks have been purchased by the City Council at a cost of £43,500. Possession is to be taken one 1st January, 1876. Payment is to be made by the Corporation for the gasworks in six percent debentures at par.

Tenders are elsewhere invited for laying water pipes for the Corporation. We are glad to see no time is being lost in this important undertaking, and think the promise to have the water available by Christmas is likely to be redeemed.

Last Wednesday afternoon a well-known and highly respected miner at the Nevis, met with an awfully sudden death by a fall of earth in his claim. He leaves a widow and young family, for whom much sympathy is felt. Particulars of the accident will be learned by reference to the "Inquest," reported in another column.

A challenge has been received from the Clyde Cricket Club to play a match on Tuesday, 9th November. A meeting of members of this club is called for this evening to consider the challenge. We understand our Clyde neighbors have set their faces against the established custom of entertaining the opposing team at supper, and have intimated to that effect in the letter to this club.

At a meeting of shareholders in the Heart of Oak Co., held in Dunedin on 12th instant, the following resolution was passed.—That inasmuch as the Manager states there is sufficient assets to meet the current liabilities of the Company if the shareholders paid the calls now due, this meeting is of opinion that it is inexpedient to grant the directors power to borrow money on the security of the Company, but thinks that the manager should take proper steps to recover all calls in arrear.

The *Chronicle* says it is rumored that Mr H. Smythies will woo the Mount Ida constituency at the ensuing general elections.

For the Arrow, Clyde, and Naseby Gaols the tenders of Messrs Kinsbury and Powell have been accepted; the amount respectively being £320, £520, and £540.

It will be seen from advertisement elsewhere that the renowned stud horse "Architect" is again placed at the service of those desirous of procuring a fine strain of blood in their equine stock. The pedigree of "Architect" is unexceptionable, and speaks for itself.

On Saturday a miner at Bailey's gully named Skinner met with an accident whereby he had one of his legs broken. It seems he was clearing out a tail-race when a block of pipeclay came down on him, inflicting the injury named. Skinner was removed to the Hospital.

The *Tuapeka Times* remarks:—Some idea of the extent to which coaching traffic has developed under the new mode of locomotion provided by the railway, may be gathered from the fact that no fewer than 36 coaches arrive at and depart from Lawrence during the week, viz., thirty running in conjunction with the train, the other six going to and from the interior in connection with the through line to the Dunstan and Wakatipu. The drivers, who are closetimed, are provided with bugles, with which they announce their approach.

The Northern Escort conveyed to Dunedin last week the following quantities of gold:—

| | ozs. | dwt. |
|------------|------|------|
| Alexandra | 404 | 0 |
| Arrow | 390 | 0 |
| Cardrona | 667 | 9 |
| Cromwell | 1733 | 0 |
| Queenstown | 1266 | 4 |
| Teviot | 616 | 0 |

Total 5076 13

On the occasion last Wednesday of the first coach coming through to Cromwell under the new system of coaching, whereby this town is made the terminus of the second day's journey from Dunedin, some energetic citizens determined to mark the event by presenting the driver with a memento of the occasion. The idea was quite impromptu, and was speedily put into practical shape. A sufficient sum was quickly collected to purchase a handsome gold Albert chain and locket, which the Mayor, Mr Jolly, by request, handed over to Mr Hugh Craig, the driver, at the same time expressing the satisfaction of the Cromwell residents that a boon long asked for was at length conceded. Mr Craig suitably acknowledged the gift, and with three cheers the crowd who had been awaiting the arrival of the coach dispersed.

The shooting of Cyrus Haley has given rise to a considerable amount of newspaper wrangling, in which the question of whether or not Warder Miller was justified in the action he took has been pretty fully and warmly discussed. We have no intention of entering into the controversy on its legal aspect; but cannot help thinking that a great deal of maudlin sentimentality has been imported into the affair. Had the notorious Sullivan had the courage to tempt a similar fate and met the same end, we question whether the unanimous verdict would not have been "served him right," and the country have congratulated itself on so cheaply getting rid of him. And yet there was scarcely any difference in the degree of criminality between Haley and Sullivan—indeed, the former seems to have been the most desperate and blood-thirsty of the two. It was not the want of will that prevented Haley from murdering in cold blood an unprotected female and her family in Auckland, walking around the house of Mr Russell at midnight firing a revolver five times into the dwelling—he had the will, and only wanted more favorable opportunity to carry out his atrocious design. The whole career of Cyrus Haley was a chapter of crime, and he evidently was a man who would stop at nothing to attain his object, accounting even human life a very little thing. In attempting to escape from custody he was fully aware of the risk he ran—he staked his life on liberty and paid the penalty. To our thinking Warder Miller simply performed his duty, and there can be no question that to him it has proved a duty of a most painful nature. He has not only been exonerated from blame by a jury, but commended for his prompt action—which probably was the means of saving innocent lives—and we cannot see the justice of holding the man up to approbrium as though guilty of a crime. It is sickening to read the numbingly pambly nonsense some writers pen about Haley's death. For instance, the *Dunstan Times* devoted a leading article to the subject in its last number an extract from which will pretty well show the calibre of a column and a half of what can only be characterised as twaddle:—"Can it possibly be believed that in Christian Dunedin, with its many churches and ministers of religion, who with their large and highly respectable congregations of worshippers, always zealous and liberal in the cause of Christianity, a man, even allowing that he was a monster in crime, should be butchered and his life blood spilt in one of the leading thoroughfares of that city; and what is more, in the very precincts of the First Church, two bullets being even fired at him in the garden of the Manse itself, where at least all should be peace and quietness, and while, perhaps, the minister of God was sleeping after the fatigues of the arduous duties pertaining to his holy office on the previous Sunday? Such a terrible occurrence is almost too frightful to contemplate, and we hope, for humanity's sake, that even the possibility of anything approaching to such a revolting circumstance will never be permitted to occur again."

TELEGRAPHIC NEWS.

[FROM OUR OWN CORRESPONDENT.]

DUNEDIN.

TUESDAY, 7.50 p.m.

Large numbers of tickets for the Macandrew banquet are being sold.

In the action *Flexman v. Standard Insurance Co.*, the jury gave a verdict for plaintiff for £1500.

The Union Company's s.s. Bruce was

wrecked about half-a-mile south of the Otago Heads on Saturday morning. She ran on to the rocks in a fog, and became a total wreck. The vessel was insured for £25,000—£10,000 in British offices; National, £2,000; South British, £1,000; Victoria, £1,000; New Zealand, £10,000; National (South Australian), £500. Yesterday her hull was sold by auction for £140.

The Southern escort arrived this morning bringing the following quantities of gold:—Lawrence, 1535 ozs.; Waitahuna, 171 ozs.; Tokomairiro, 382 ozs. 3 dwt. Total, 2088 ozs. 3 dwt.

The *Star's* Wellington correspondent telegraphs that Sir Francis Dillon Bell has decided to retire from political life, and will announce his retirement from the Speakership of the House of Representatives at this evening's sitting.

In the House yesterday afternoon, Pyke gave notice to move for another Goldfields member for Otago.

The Assembly will be prorogued on Thursday (to-morrow).

GRAHAMSTOWN, Oct. 16.

A woman named Mrs Wall killed two of her children this afternoon, a boy aged nine years and girl aged seven. It appears that the woman has been giving way to drink, and in a sudden burst of insanity took an axe and inflicted dreadful wounds about the head and neck of the children. The boy died immediately, and the girl survived only a couple of hours.

LATEST AUSTRALIAN NEWS.

MELBOURNE, Oct. 13.

Sir James McCulloch's amendment condemning the financial proposals of the Government was carried by 39 to 34. The Ministry decided on a dissolution, which the Governor refused to grant. Rumor has it that they intend to retain their seats at all hazards, but it is more likely they will find discretion the better part of valor and resign.

Mrs Goodenough left to-day for England by the s.s. Durham.

A. K. Smith has been elected Mayor of Melbourne without opposition.

The New Zealand cable was shipped aboard the Edinburgh and Hibernia steamers, which leave London about the end of the month.

CORONER'S INQUEST.

At Stuart's Victoria Hotel, on Friday afternoon, an official enquiry was held as to the cause of death of James Beare, miner, Nevis. Dr Corse, district coroner, presided, and Mr Thomas Fergus was chosen foreman of the jury. After viewing the body, the following evidence was taken:—

Hugh Hutchinson, miner, Nevis, deposed: I have seen the body on view, and recognise it as that of James Beare. Worked in the same claim with deceased, and was so working on Wednesday, 13th inst. About three o'clock in the afternoon of that day, I left the claim for the purpose of turning the water into the hose, leaving deceased in the claim fixing the hose and clearing up. After being away six or eight minutes I returned to the claim, when I saw the wife of deceased running towards the claim screaming. On arriving at the claim I noticed there had been a fall of earth, but I could not see deceased. The fall came from half way up the face. Deceased's wife told me he was covered up. In company with others, I endeavored to find the body, and succeeded after at least half an hour's work. Deceased was lying in the sluice, face downwards. Life was quite extinct. The body did not appear much bruised—there were no heavy stones in the face. There was about three feet of earth on the body. From the position of the body, I am of opinion that deceased was engaged clearing the sluice of stones at the time of accident, and seeing the fall coming, ran, but was overtaken. The height of the slip was not above 15 or 16 feet; the face was overhanging. We did not consider the work dangerous, but still kept a look-out. We had been nine weeks at work in the claim.

By a jurymen: The reason it took half an hour to recover the body was that a large strip of earth fell, and we did not know the exact position of the body. There were four of us engaged removing earth.

Thomas Gram deposed: Am a miner, residing at Nevis. Identify the body in the next room as that of James Beare. My claim adjoins the one in which he worked. About 4 o'clock on Wednesday, 13th instant, I saw the wife of deceased running towards his claim, wringing her hands, and crying, "My husband!" In less than half a minute I was on the ground, where I found last witness engaged blowing the dirt away with the hose, in search of the body. There was about a ton of stuff lying on the body, from the back to the head, which we had to pick away. It was nearly thirty minutes before we got the body out. It was lying as though deceased had been caught in the act of running—face down all arms outstretched. My opinion is that deceased had been trying to pick a stone from the face previous to turning the water on, and seeing the fall coming endeavored to run clear, but was caught. I consider the claim dangerous—have known at least three men to be slightly hurt in it. Deceased man, Beare, was well acquainted with the nature of the ground.

It not being considered necessary to examine any other witnesses, the jury returned a verdict to the effect that the deceased, James Beare, met his death accidentally by a fall of earth in his claim at Nevis, on Wednesday, 13th instant.

CARDRONA RACES.

The annual race meeting was held on Friday and Saturday, 15th and 16th instants, and was in every way a success. The weather was delightful, and the absence of dust, notwithstanding an agreeable breeze, created an enjoyable feeling, after having endured race-meetings at Clyde and Cromwell. The booth was attended to by Mr M'Grath, of the Golden Age Hotel, and appeared to be liberally patronised. Notwithstanding the absence of police, it is a pleasure to record the fact that during the two days' racing there was not even the semblance of quarrelling or misconduct, and all present appeared to thoroughly enjoy the annual reunion. There was, as may be imagined, a large preponderance of the Mongolian element in attendance, and "John" occasionally tried his luck at some of the games to the extent of a shilling, causing much merriment by his change of facial expression as the fates favored him or otherwise. The German Band was in attendance, and was much admired, but apparently not very liberally paid, as they "struck" on the second day. The Stewards were indefatigable in attention to their several duties.

The following are the results of the various events:—

FIRST DAY.

MAIDEN PLATE, of £7 10s. One mile. Weight for age.

| | | | |
|-----------|-----|-------------|---|
| Kaka | ... | (Waddell) | 1 |
| Fanny | ... | (Potter) | 2 |
| DetraCTOR | ... | (G. Fraser) | 3 |

DetraCTOR led all the way round, but when within 50 yards of home crossed Kaka, unintentionally, yet sufficiently to cause the Stewards to declare it foul, and to give first place as above-noted.

HANDICAP MILE HEATS, of £10.

| | | | |
|--------|-----|-----------|---|
| Clyde | ... | (Waddell) | 1 |
| Jasper | ... | ... | 2 |

There was a splendid race for the first heat, but Jasper, in coming home, rushed among the crowd, and consequently the second heat was a walk-over for Clyde. Jasper when bolting struck Mr Lafranchi violently, and it was feared he was seriously hurt, as he was for some time in a state of unconsciousness, but happily his injuries although severe are not serious.

NEWTOWN HANDICAP, of £10, with a sweep of one sov. to go to second horse, 1 1/2 mile.

| | | | |
|------------------|-----|--------------|---|
| Young Leamington | ... | (Waddell) | 1 |
| Idle Girl | ... | (Fraser) | 2 |
| Ballarat | ... | (Ballantyne) | 3 |

Five started for this race, and although it was looked upon as a "moral" for Leamington, his backers felt very uneasy at the finish, the handicap proving an excellent one.

HACK RACE, of £5.

Garryowen, Jerry, Jasper, and Kaka also ran, coming home in the order named.

This concluded the first day's programme, and a handicap foot-race of 200 yards for £2 was announced, which brought some six or seven competitors to the contest. This event was won by young Master Pearce, who had a start of 20 yards given him.

SECOND DAY: SATURDAY.

DISTRICT HANDICAP.

| | | |
|---------------|-----|---|
| Lady Pembroke | ... | 1 |
| Ballarat | ... | 2 |
| Black Bass | ... | 3 |

Garryowen also went to the post, but making a false start he ran a short distance off the course, and fell in crossing some boggy or broken ground, throwing his rider (Waddell) heavily and getting away. The race had consequently to be run without him.

CARDRONA HANDICAP, of £20. Distance, two miles.

| | | |
|-------|-----|---|
| Clyde | ... | 1 |
|-------|-----|---|

Clyde walked over for this event, to the vexation naturally of the backers of Leamington, the latter, with Idle Girl, being scratched. It appeared upon enquiry that Waddell, the owner of Leamington, would not allow any stranger to ride his horse, and he was incapacitated by reason of his accident in the preceding race. Much discontent was expressed, and it certainly was unsatisfactory in the extreme. Whatever show of reason there was for scratching Leamington, there did not appear to be any for treating Idle Girl to a similar display of the white feather, as she could certainly hold her ground with Clyde.

SHORTS, of £5.

| | | |
|---------------|-----|-------|
| Idle Girl | ... | 3 1 1 |
| Clyde | ... | 1 3 2 |
| Lady Pembroke | ... | 2 2 - |

SELLING RACE.

| | | |
|---------------|-----|---|
| Lady Pembroke | ... | 1 |
| DetraCTOR | ... | 2 |

The winner was sold by auction for £20 5s, thus giving £5 5s to the funds.

CONSOLATION, of £7.

| | | |
|----------|-----|---|
| Ballarat | ... | 1 |
| Jerry | ... | 2 |

A Hospital Race, won by Lady Pembroke, brought the meeting to a conclusion. The various hotels appeared to fully appreciate the visitors from distant parts, and no effort was spared to provide them with amusement. The St. Vincent Company performed each evening at Lafranchi's hotel, and were fairly patronised.

Mr T. Fergus, District Engineer, is now engaged in surveying the Pipeclay Sludge Channel.

We are in receipt of no less than three new aspirants to Otago public favor in the literary line, viz., *The Waikaiti Herald*, *Palmers and Waikaiti Times*, and the *New Zealand Churchman*, a journal devoted to the interests of the Church of England. All are excellently got up, and bid fair to have lengthy and prosperous lives.

ABOLITION OF PROVINCES.

We have received copy of the Abolition of Provinces Bill as it has issued from Committee. As it now stands the measure will probably become law, unless the Upper House thinks fit to amend it in some particulars, which is scarcely likely—at least not to any great extent. Our readers will remember that in our issue of 11th August we reprinted draft of the Bill as introduced by the Government. Notwithstanding all the time and windy oratory spent since then, the Abolition Bill has come forth from the ordeal little altered from its original form. We are glad to say that the changes made in it are, on the whole, even more advantageous to goldfields districts than the first proposals. Whether or not we are in the future to be governed under a new system may now be said to depend on the voice of the people themselves, and it therefore behoves every colonist to educate himself up to the standard of being able to give an intelligent vote on a question of such vital import to the well-being of the country. Having this object in view, we purpose to briefly review the most salient amendments which the Bill has undergone, and to render the subject as plain as possible will go through the twenty-seven sections which comprise the measure *seriatim*—

Clause 1 gives the short title of the Bill, "The Abolition of Provinces Act, 1875."

Clause 2 is devoted to the interpretation of the various terms and expressions used in the body of the Bill. "Governing body" means and includes, Borough Councils, Boards of Wardens, Commissioners, Trustees, or any person or body having the management, control, or care of roads or highways in any road district. "Road District," "Municipality," and "Public Works" are also defined in this clause, and do not differ from the interpretation in the original measure.

Clause 3 repeals the second section of the Constitution Act, and declares the abolition of the various Provinces.

Clauses 4, 5, 6, 7, and 8, remain unaltered. 4 sets forth that abolished provinces shall be known as Provincial Districts; 5, that the laws at present existing within each Province shall remain in force till altered; 6, that Superintendents and Provincial Councils of the abolished Provinces are to cease to hold office and be abolished respectively; 7 provides that the powers at present held by the Superintendents are to be vested in the Governor; while 8 gives the Governor power to appoint persons to carry out the functions at present performed by Provincial officers.

Clause 9 provides that all real and personal property now vested in Superintendents shall, on abolition, vest in the Crown, and be held for the same purposes and objects as they are now held.

Clause 10 secures that all property at present set apart for educational purposes in any of the Provinces shall, after abolition, be vested in a Board, or Boards, of Education, and all the functions and duties relating to such property shall be vested in the Chairman of the Board of Education in any Provincial District, who also shall hold the property in trust for educational purposes.

Clause 11 relates to contracts or actions existing at the date of abolition, and provides for their due carrying out. Clause 12 is one merely of interpretation. The 13th Clause provides for the payment of compensation to officers whose services may be dispensed with consequent on abolition. Where no engagement has been entered into, the compensation to be at the rate of one month's salary for each year's service.

Clause 14 deals with license fees, fines for scabby sheep, &c., payable to Road Boards or Municipalities, and is substantially the same as originally printed, with the satisfactory alteration that the moneys are payable direct to the governing body instead of first going to Wellington.

Clause 15, which relates exclusively to Goldfields Revenue, will be best understood by reprinting in its entirety. The portions in italics are additions made in Committee:—

Notwithstanding anything to the contrary contained in the Public Revenues Act, 1867, or any other Act, the revenues arising within any Provincial district under the provisions of The Goldfields Act, 1866, or any Act for the time being in force relating to the mining for gold, in respect of miners' rights, business licenses, or otherwise in respect of the occupation for gold-mining purposes of Crown lands, and the revenues arising within any Provincial district under the provisions of the Gold Duties Act, 1870, or the Gold Duties Act, 1872, shall in no case be deemed to be revenue arising from the occupation of the waste lands of the Crown, but all such revenues shall be applied in defraying the costs, charges, and expenses incident to the management and administration of the gold-fields within such Provincial district: Provided that nothing herein contained shall extend to any such revenues as in the preceding part of this section mentioned, if the same shall be derived from the sale of the waste lands of the Crown within any gold-fields, or from rents or other moneys received under agricultural leases of such lands, but all such last-mentioned revenues shall be deemed to be land fund of the Provincial district in which the same shall arise or be received.

Such revenues shall also be charged with the payment of all rents or other sums of money which may be payable by her Majesty the Queen, or by the Governor of the Colony, to the native owners of any land letted or otherwise occupied for gold-mining purposes under The Goldfields Act, 1866, or any Act amending the same, or under any other Act for the time being in force relating to mining for gold.

After making the alterations herein provided for, the Goldfields Revenue shall be paid to the same account as the land fund of the Provincial district in which the same shall arise or be received.

over to the governing body or bodies of the district from which such revenue has been received, together with any proportionate endowments which may accrue from the land fund and from the Consolidated revenue, to be computed in the manner provided in the nineteenth and twentieth sections hereof.

The appropriation of the Land Fund is dealt with in sections 16, 17, 18, 19, 20, 21, and 22. It is provided that after the payment of interest and sinking fund on all loans and liabilities chargeable against the Province; cost of surveys and general administration of waste lands; annual payments to local governing bodies; that the residue shall be applied to the construction and maintenance of public works within the respective Provincial Districts. Clause 19 makes provision for the annual payment out of land revenue of an endowment of £ for £ on general rates collected by governing bodies of road districts, but no such annual payment shall exceed one shilling in the £ upon the annual value to let, or one penny in the £ upon the value to sell, of the rateable property within any such road district; and 20 secures to the governing body of every road district and municipality a similar payment out of the consolidated fund, subject to the same limit of rating power. The endowment clauses embrace the purely goldfields revenue, which is treated the same as general rates, and subsidised in like proportion.

Clause 21 makes it compulsory for every road district or municipality to prepare, and transmit to the Colonial Treasurer on or before the first day of June in each year a detailed account of their financial concerns for the year, verified by the chairman or the Mayor as the case may be, otherwise the statement will be of no avail. On such account will be calculated and paid the amount of endowment. Clause 22 charges the cost of police, gaols, harbors, hospitals, lunatic asylums, charitable institutions, museums, public libraries, and education throughout the Colony against the consolidated fund, so far as such cost is not otherwise provided for by law. Clause 23 secures the public creditor, and 24 relates to the constitution of shires—such shires, when formed, to stand in the place of road districts previously comprised within the newly constituted shire.

Clause 25 reads—It shall not be lawful for the Superintendent of any Province to convene the Provincial Council thereof or for any Provincial Council to meet in session before the day next after the last day of the first session of the next or sixth Parliament of New Zealand.

26 prohibits any Superintendent from entering into any contract or engagement after the 30th September last for the construction of railway, tramway, or harbor works, without the consent of the Governor; nor are they allowed to expend any public money amounting in the whole to £1000 unless the money to meet such expenditure has been duly appropriated by the Legislature of the Province and the Governor is satisfied the Provincial revenue is sufficient to meet the expenditure.

Clause 27 and last notifies that sections twenty-five and twenty-six and this section of the Act shall come into operation on the day on which it is assented to by the Governor on behalf of Her Majesty, and the remaining sections of the Act shall come into operation on the day next after the last day of the first session of the next or sixth Parliament of New Zealand.

BANNOCKBURN MINERS' ASSOCIATION.

The quarterly meeting of the Bannockburn and Carrick Range Miners' Association was held on the 11th instant, Mr Buchan in the chair. The minutes of the previous meeting were read and confirmed, and the Secretary read the outward and inward correspondence.

It was proposed by Mr McKesie, seconded by Mr Ray, and carried, "That the Secretary be instructed to answer Mr Ewing's letter, and in answering the letter to state that this Association ignores all communications except sent through the Secretary."

Proposed by Mr McKesie, seconded by Mr Crombie, and carried, "That any information of an important character tendered to this Association be not published until authenticated."

It was resolved that Mr MacKellar's letter be published in the CROMWELL ARGUS. It was also resolved to forward Mr Ewing's letter for publication.

Proposed by Mr Moore, seconded by Mr McKesie, "That officers be nominated on the night of the annual meeting, and that the election take place on the first Wednesday the following month."—Carried.

The customary vote of thanks to the chair closed the proceedings.

The following are copies of the two letters referred to:—

Cromwell, 5th Oct., 1875.

DEAR SIR,—I received your letter re certain statements made at a meeting of your Association by Mr Buchan in regard to running cattle on the Kawarau station by residents in the Bannockburn district, in which you ask me for some information which will enable you and other members of your Association to understand the matter. I noticed that some correspondence took place (published in the CROMWELL ARGUS of July 28th and August 4th, I think) between Mr Buchan and Mr Cowan on the same subject, but I did not feel at all called upon to offer any explanation in consequence thereof, although my name was rather freely used on both sides. Your courteous note, however, requires an answer.

Mr Ewing's statement that I "had intimated to Mr. Buchan that an arrangement had been made whereby each resident (in the Bannockburn) had

the privilege of running six head of cattle without interference by the runholder," is so far wide of the truth that I can only suppose Mr Buchan altogether misunderstood what I really did say when he and I were speaking on the subject. What I did say was to the effect (and it was based upon a casual conversation which had taken place between Mr Cowan and myself upon the subject of the recommendation made by the Goldfields Committee last session on the Bannockburn petition for a commonage) that I thought there would be no necessity for any special arrangements being made with the runholder, as I understood he was quite willing to allow residents to possess a reasonable number of horses and cattle upon the Kawarau Station; and practically this was all the residents in the district wanted. I could say nothing as to the number any one resident could run, but expressed my full conviction that the runholder would allow persons engaged bona fide in dairy-keeping to run six or even more; but that in no case did I think the runholder would allow cattle to be kept if kept merely for the purpose of breeding and rearing stock. The number, "six," was specified by me in answer to a question by Mr Buchan whether six would be allowed to run.

The above is the substance of all the information I ever gave Mr Buchan on the subject of running cattle on the Bannockburn, and I think the members of your Association will hardly believe I would be so foolish (to use a mild term) as to state that arrangements of any kind had been made with the runholder when I knew no arrangements had been made and that none could be made without my knowledge. I must either have been very unfortunate in expressing myself on the occasion of my conversation with Mr Buchan, or that gentleman must have been unfortunate in understanding what I did say.

There is one point in the letter of Mr Buchan, (published August 4th) which, as Mr Buchan happens to be the president of your Association, I may as well take notice of, as it has a material bearing on the matter as between that gentleman and myself. From that letter it would appear that I called on Mr Buchan for the special purpose of giving him the information which he afterwards communicated to the Association; and naturally one would suppose, if such were the case, that Mr Buchan would try to remember it with more exactness than otherwise he would have done. I can only say in reference to this point that I am not in the habit of making visits to anyone of that kind, and I did not on the occasion under notice do so. My business with Mr Buchan was, as I have no doubt that gentleman will recollect, entirely of a personal nature to himself, and if he had not introduced the matter of commonage, it would not probably have been referred to by me.

Sir, in conclusion I have to ask that you will excuse any further reference to the letters which passed between Messrs Cowan and Buchan on this subject, and to take my assurance that when I have any matter to communicate to the Bannockburn Association, I will do it in the proper manner (i.e., in writing) and through the proper channel (i.e., yourself); I will not trust it to anyone's uncertain recollection. Believe me to be, Sir, yours faithfully,

D. MACKELLAR.

D. McGregor, Esq.,
Secretary Bannockburn Miners' Association.

St. Bathans, 7th Oct., 1875.

SIR,—Mr. Clarke, Secretary of the Central Association, has forwarded me your President's letter of the 28th ult., with copy of his reply.

I am sorry that my selection of "experienced miners to act as judges" (not delegates as you call them) of plans and proposals for gold-saving apparatus should have given offence at Bannockburn. You appear to consider the Bannockburn Mining Association to have been slighted, but I think, when I have explained my action in the matter, you will readily accept my assurance that no slight was intended, but that, on the contrary, I was anxious to secure a representative from such an important district.

On 9th September I received a telegram from the Goldfields Secretary, Mr MacKellar, informing me that, re gold-saving bonus, five plans had been submitted, and asking me to nominate for Superintendent's approval six experienced miners to act as judges. I replied that I did not care to nominate, but with his approval would communicate with the Secretaries of the Associations of the six most important districts (meaning hydraulic mining districts), asking them each to nominate their most experienced man. The Goldfields Secretary pressed me to nominate at once, wishing to avoid the delay of writing. Believing that it would make no great difference in securing the result to be desired, I consented to this, and agreed to nominate at once. I decided to confine my nominations to the Northern Goldfields, Cromwell and Bannockburn on one side and Naseby on the other. I thought it would be ridiculous to put the Government to the expense of bringing men from every corner of the Province to decide upon so small a matter. I was even of opinion that a few miners might have been selected in one place, the plans submitted to them, and all expense and trouble avoided. Being acquainted personally or by report with the leading miners throughout the greater part of the district above indicated, I was able, with perfect confidence in the correctness of my judgment, to select three of the judges. For the name of the fourth I telegraphed to the Secretary of the Local and the Treasurer of the Central Mining Association at Naseby. For the name of a fifth, I should undoubtedly have telegraphed to your Association had there been a telegraph station at Bannockburn. That not being the case I telegraphed to Mr Colclough, (whose acquaintance I made when he so ably represented Cromwell at the Clyde Conference,) to give me the name of most experienced miner, Bannockburn or Cromwell, to act as judge, etc. He gave me the name of Mr G. B. Douglas. Having been acquainted with that gentleman for many years, I felt no hesitation in nominating him, as I felt sure a more experienced man it would be hard to find anywhere. Still, to make sure, when I telegraphed my nominations to the Goldfields Secretary, I asked him if he knew of a more experienced person in Cromwell district to substitute. All the names submitted were, however, approved of, and I was asked to add Buchan or Crombie, for Bannockburn. Mr Buchan I had met at the Clyde Conference, and had heard of since, and, however valuable his opinions might

be on some subjects, I know he could not be called an experienced miner. Of Mr Crombie I confess I did not know much. I knew him to be a miner, and that he had represented your Association at the Lawrence Conference, and I nominated him.

I have gone into the matter at length because I wish to remove any wrong impression which may exist in the minds of the Bannockburn people. At the same time I think you might have taken it for granted that I had good reasons for acting as I did, and so excused any apparent disrespect, instead of writing, and, over so trivial a matter, threatening a withdrawal from the Otago Mining Association.

We have common enemies enough to contend against, without quarrelling among ourselves over matters of etiquette.—I am, Sir, yours obediently,

JOHN EWING,

President O.M.A.

The Secretary,
Mining Association, Bannockburn.

COLLINS'S PICK—No. 1.

Cape Squally, Kawarau.

October 15, 1875.

SIR,—Your message by the baker was promptly and accurately delivered. The Angus is to grace our hut table every Thursday, weather permitting; free gratis, in exchange for occasional intelligence from this quarter. My mate says you have applied in the wrong place if you expect to find intelligence here, but this is Tom's sarcastic punning on words, to which he is so prone.

Your request reached us quite opportunely, for we have just discovered a quartz reef, which we anticipate will create a sensation. It projects out of a landslip. The casing is full of gold, though Tom says it is nothing but schistos glittering with pyrites (he means pyrites). But that is really of little consequence if we can but find it. Tom is going down next week to apply for a prospecting claim, and will take with him a flour-bag full of specimens. He is confident of success in getting shareholders in the scheme. He says he will only have to stand at Bob Kidd's door for a short time with a piece of quartz in his hand, and wetting it each time anyone passes by, draw attention by pointing at the rough edge of the specimen. The effect will be that nine out of every ten will positively declare they see specs of gold quite plainly, although there may not be a spee in the piece.

The reason so many fibs are told is obvious. Every man on the Goldfields feels called upon to consider himself an expert in reefs, and his reputation would be at stake if he failed to see gold in every piece of quartz presented for inspection. "Hence the fib." Through a dozen falsehoods well circulated, says Tom, he will advertise the reef in half a day, and the sucking brokers will very soon undertake to raise the capital, out of which the promoters are to get £500 for the discovery.

Tom is in ecstasies at the thought of seeing our names in print in the ARGUS, and again in a flourishing telegram in the Dunedin dailies: thus:—"Wonderful Discovery! The richest quartz reef ever yet found, as yet undeveloped, every chip containing as much gold as quartz; by those enterprising adventurers of Californian experience, Messrs Collins Pick and Thomas Shovel, to whom a prospecting claim has been granted. Specimens are being exhibited in all the banks at Cromwell."

So no more at present, from yours truly,
COLLINS PICK.

P.S.—Can you or any of your readers account for a 4lb loaf weighing only 3lbs after a journey of 15 or 20 miles? Tom positively asserts it is deterioration by exposure to the atmosphere, and quotes scriptural authority that there is many a flour that wastes its sweetness (and consequently its substance) in the desert air.
C. P.

LETTERS TO THE EDITOR.

BARBER-OUS UNTRUTH.

To the Editor of the CROMWELL ARGUS.

SIR,—In looking over the columns of the *Dunstan Times* of Friday last, I noticed some ridiculously mendacious statements made therein by the Cromwell correspondent, which I cannot allow to pass without comment. In speaking of the advent and flight of the late barber, a tenant of mine, he writes: "The landlord, stern and unrelenting, wanted his rent," etc. Now I may inform you that the said barber was never asked for the rent either by myself or agent, he having paid in advance; nor does he owe me any at this date. When he found that shaving would not pay, like an honorable man he went and labored to clear his liability: shall I say to "our own" of the *Times*, "Go thou and do likewise"? I am not averse to him playing the "funny man" in its columns, but it must not be at the expense of my character, however "stern and unrelenting."—I am, &c.,

JOHN MARSH,

Cromwell, Oct. 16, 1875. Bridge Hotel.

The *Tuapeka Times* of Wednesday says:—We learn that Mr Duncan Campbell, settler at Tuapeka Mouth, has disappeared in rather a mysterious manner. It appears that on Sunday evening Mr Campbell crossed a man from the west side of the river to Dalhousie, and remained with the boat whilst the passenger went up to the township, promising to return in a few minutes. The man was longer than he anticipated, and on his return to the river bank was surprised at not finding either the boat or Mr Campbell, who has not yet been seen or heard of. Search was made by the residents of Dalhousie without avail, and up to the hour of our going to press, neither Campbell nor the boat had been heard of. Mr A. M'Beath gave information to the police last evening, and they started away to assist in the search.

NEWS BY THE SAN FRANCISCO MAIL.

EUROPEAN.

The anniversary of the surrender of Sedan was observed throughout Germany as a holiday. General rejoicing officially.

It has been suggested that 70,000 Icelanders, now in a starving condition owing to the eruption, should be shipped to New Zealand.

The Scotch express train collided with an excursion train from Morecambe to Dradrod, near Kildwick. Five persons were killed, and forty injured, several probably fatally.

England and France exchanged territory on the West Coast of Africa. England gave Gambia for Dabon, Great Bassam, Assinee, &c.

An exciting bicycle race of fifty miles for the championship, between an Englishman and a Frenchman, was won by the Englishman by one yard.

The Hon. William Fox has delivered several speeches on teetotalism. He speaks enthusiastically of New Zealand, and says he is determined to deposit his bones there.

The statement of the sale of the Duchy of Sax Coburg is denied as a wilful invention, for which the German papers are responsible.

The ten miles race between David Stanton, the bicycle rider, and a pony, was won by the pony Lady Flora, who did the ten miles in 40 minutes, beating Stanton by half a mile.

A merchant and shipowner named Loughlin Freeman, has been sentenced at the Waterford Assizes to pay a fine of £300, and to go to gaol for two months besides, for sending an unseaworthy vessel to sea.

The action of the officers of the Royal Yacht Alberta in steaming up to 17 knots an hour in a crowded bay is strongly condemned. The Mistletoe, the yacht run down, was a small schooner. The breeze was light, and she could not get away.

A new lodge of Freemasons was consecrated at the Alexandra Palace under the warrant of the Grand Lodge of England. A letter from the Grand Lodge of Rome was read giving fraternal greetings to the youngest member of the English craft.

July 17th was "Fair Saturday" in Glasgow, and it was computed that 180,000 pleasure-seekers left the city on that and the preceding day. On the Saturday 400 drunkards were fined at the Police Courts, and scenes of noisy revelry were carried on in the streets at night until the public houses were closed.

A curious dinner took place at Airdrie lately, all the invited guests being octogenarians. Several of the ancients invited did not put in an appearance, but there were, nevertheless, seven of them present, whose combined ages reached a total of 581, or an average of 83 years each.

Mr Singer, the well-known inventor of the sewing machine which bears his name, died at his residence at Paignton, South Devon, on July 23rd, aged 64. On the same day died Sir Charles Locock, Bart., M.D., who attended the Queen at the birth of all her children.

A wholesale reduction of salaries has been commenced in Turkey. With a self-denial rare in that land of corruption, the Grand Vizier has commenced his retrenchment by cutting down his own salary to less than a fourth of its former amount, and has followed this up by reducing the salaries of his colleagues 50 per cent.

The King of Greece had a narrow escape from a dangerous railway collision recently, in consequence of the engine-driver of his train getting drunk, requiring to be removed from his post by main force. Two trains going in opposite directions on the same line were happily stopped just in time to prevent a collision.

The Rev. Frank Simmons, Principal of Nelson College, New Zealand, has written to the *Dundee Advertiser* an account of New Zealand very *couleur de rose*. He says Hokitika carpenters are on strike because their wages are reduced from 16s to 15s per day, and that Dunedin carpenters get more than that.

A very singular accident, attended with fatal results, has occurred at the Pyrotechnic School at Toulon. A naval lieutenant was filling bottles with a chemical compound, explosive only when brought into contact with water, when a drop of perspiration from his forehead fell into one of them, causing an explosion by which three persons were killed on the spot.

Fuller enquiries have had the happy result of showing that the injury done to life and property by the disastrous floods in the south of France was very much exaggerated during the first days of panic. It is now believed that the number of lives lost will not exceed 600, instead of 2000 originally reported, and that £15,000,000 of estimated damage done to property will be reduced by two-thirds of that amount.

A most deliberate attempt to wreck a railway train was made at Woodhouse Junction, near Sheffield. It was discovered just in time to prevent a disaster, that two loose rails and some fish plates had been placed upon the metals; and on a police-officer going to investigate the matter, he found concealed in a hollow tree near the spot a man, who confessed that he had placed the obstruction on the rails, and was waiting to see the result.

The *Japan Gazette* says that a curious anatomical discovery is said to have been made by Dr Higendorf, of the German Society at Yeddo for the Study of the Natural History and Ethnology of Eastern Asia. He says that the cheek-bone of the Japanese is double in many cases, instead of

being a single structure. The additional bone is united to the other by a suture, and is believed to be peculiar to the Japanese race.

Miss Agnes Livingstone, the eldest daughter of the African explorer, was married on July 27th, at Hamilton, to Mr Alexander L. Bruce, a member of the well-known Edinburgh brewing firm of Younger and Co. The ceremony took place in the Auchingramont Established Church, and was conducted by the venerable Dr Moffat, grandfather to the bride, assisted by two other ministers. The town of Hamilton was gay with flags, and kept general holiday in honor of the event. It was in the hills of the not far distant town of Blantyre that Dr Livingstone commenced his career.

AMERICAN.

Judge Woodruff, of the United Circuit Court, is dead.

A child at Fairhaven has been mangled by dogs.

Jefferson Davies declines to accept the gift of a homestead in Texas.

A train was thrown into the Mississippi River by the rails spreading, and resulted in 15 persons being seriously injured.

Two prisoners in Florida, convicted of indecent assault, were taken out of gaol and hung in front of the church.

Black Nut, under sentence of death in Panama, has committed 17 assassinations, several rapes, robberies, and other crimes. He is 88 years old.

George Bittenbanden, aged 20, was shot and killed on the spot by Edward Bittenbanden, his brother, only 19, in San Francisco. The murderer was arrested and lodged in prison.

At Oil City, the lightning struck a large crude iron tank at the Imperial Refinery. Five tanks filled with oil and benzine were destroyed. Altogether about 50,000 barrels were consumed by fire. Loss 200,000 dollars. No insurance. Two hundred men were thrown out of employment.

At Montreal, on the 2nd September, a great disturbance occurred at the funeral of Mr Guifford. The mob stoned the hearse, and would not allow it to enter the cemetery. Fighting took place and the hearse was obliged to retreat. The body was afterwards deposited in the Protestant Cemetery Vault, and guarded by 18 armed men, under the command of a sergeant of police.

Horrible cruelties are reported in Illinois State Prison. Ex-convict Joliet makes a statement that three instances come under his notice while in prison of cases where prisoners were tortured to death. Two were dosed to death in ice water. One was knocked on the head by a warder, because he was too sick to walk fast.

Food for the Brain.

A New York letter reports that, a short time ago, a certain Dr Lambert read a paper before the Liberal Club on the "Special Articles of Food adapted to the Nutrition of the Brain, and the Methods of Cooking Them." Preparatory to this, he invited some of his friends to a banquet, which is thus taken off by one of the daily papers:—"Last evening a party of gentlemen ate a 'brainial' dinner at Jones's restaurant, in Broadway, their host being Dr T. S. Lambert. Mr James Parton and about twenty others, more or less known, sat round the board, and nourished their brains to a somewhat alarming extent. The waiters grinned from ear to ear when they served the food, for not one of them had ever dreamed of a dinner beginning with toasted crackers and cheese and ending with boiled custard and buttermilk. The 'brainial' qualities of toasted cheese have long been known to scientific men, and nearly all the members of the Liberal Club are passionately fond of boiled custard, which, as is well known, contains over 90 per cent. phosphorus, and will readily burn if rum be poured over it. Dr Lambert lectures to-night on 'Brain Building,' and it was to raise the intellects of his audience to a high place that he gave this exhibition of encephalotropophagy, or brainial food. Such a dinner will do occasionally, but is dangerous if too often indulged in. The human brain is about eighty per cent. water, and if it be stuffed with the sublimations of cheese, oysters, codfish, tripe, calves' brains, oat groats, and boiled custard, it becomes a powerful battery, a perilous magazine, liable at any moment to explode, to the great detriment of its owner and the surprise of bystanders. By the time the sixth course, which consisted of stewed tripe and green peas, was reached, the excitement became fearfully intense, and with the calves' brains the feast became almost an orgie. The forehead of the Pantarch grew four inches higher with the great pressure from within upon the convolutions, but happily the ganglion where oatmeal becomes universology was not affected in any marked degree. The parietal bones of a great Comptist separated, and the coronal suture widened quite perceptibly. Around the brow of a mighty spiritualist there was a marked nimbus, where the escaping phosphorus ignited upon coming in contact with the oxygen of the air. It was singular in the extreme to watch the oatmeal rising to the brain; to see the subtle poison of the boiled custard turn a man into a demon of ratiocination; and as the fiery buttermilk mounted to the intellect and hurled the reason reeling from its throne, the beholder was fain to acknowledge that the gods are just, and 'of our pleasant vices make instruments to plague us.'—*Sanitary Record*.

V. R.

OTAGO GOLDFIELDS.

APPLICATION FOR AN AGRICULTURAL LEASE.

District of Cromwell.

October 2, 1875.

To the Warden at Cromwell.

I hereby apply for a Lease of Land for agricultural purposes, situate at and being Sections 20, 21, 18, and 17, Block L, Terras District, and comprising 200 acres, or thereabouts, in accordance with the Agricultural Leases Regulations, made under the "Goldfields Act 1866," and the "Goldfields Act Amendment Acts 1867, 1868, 1869."

JOHN M. McLEAN.

NOTICE.

The above application will be heard before me at Cromwell, the 22nd day of October next.

W. LAWRENCE SIMPSON, Warden.

THE THOROUGHBRED HORSE ARCHITECT.

WILL TRAVEL THIS SEASON IN THE

DUNSTAN & CROMWELL DISTRICTS,

AND STAND AT

MOUNT PISA STATION.

Architect is a rich bay, with black points; stands 16½ hands, with great substance and quality. He has proved himself a sure foal-getter. He was bred by John Field, Esq., of Tasmania, and his stock in that island have turned out remarkably good on the turf, as hunters, and as weight-carrying hacks. "Mechanic," (then a two-year old colt,) by Architect, ran well at the last Hobart Town meeting in the Railway Stakes, although not fit, being not long off ship-board, having been shipped to Lyttelton, where owing to the want of due clean certificates from the port of shipment, he was not allowed to land, although pronounced free from disease by competent veterinary surgeons at Lyttelton, and his owner was compelled to ship him home again.

Architect's sire, "Peter Wilkins," is the sire also of the "Quack," winner of the Melbourne Cup; "Beavolio," winner of the Sydney Derby; "Flying Dutchman," the hero of the Australian Cup of 1872; "W.F." the hurdle racer, and other horses; and is full brother to "Rose de Florence," the dam of "Maribyrnong," (the most fashionable sire in Australia,) "Ferryman," "King of the Ring," etc.

PEDIGREE:

Architect by Peter Wilkins, by the Flying Dutchman from Boarding-School Miss, by Plenipotentiary from Marpessa, the dam of Pocahontas, (Stockwell's dam.) His dam, Governess, by Conrad from Bequest, by Snozer from Medea, by Mozart from Whizgig, by Whalebone. For full tabulated pedigree, see Vol. V., New Zealand Stud Book.

Terms £5 5s.

Groomage 5s, paid at service.

Guarantees as by arrangement. Good padlocks; every care taken, but no responsibility.

I. LOUGHKAN.

1st October, 1875.

Cromwell.

AUSTRALASIAN HOTEL,
MACLAGGAN-STREET, DUNEDIN.

JAMES PATTERSON, late of Clyde, begs to
inform his numerous up-country friends that he
has leased the above hotel, which he has put in a
thorough state of repair. He has spared no ex-
pense in making this large and well-known house
a comfortable home for boarders; and visitors
from up-country will have every attention paid
to their welfare. This Hotel is conveniently
situated, being within a very short distance of
the Railway Station.

Wines and Spirits of the best qualities.

VICTORIA HOTEL,

RICHARD WILLIAMS ... Proprietor.

R. WILLIAMS, having been appointed Agent
for Cobb and Co.'s Line of Coaches, would as-
sure the travelling public that their comfort and
convenience will be attended to with that strict
attention which has already secured to the Vic-
toria such a liberal patronage.

Families and Travellers visiting Lawrence will
find every accommodation, and receive the best
attention, at this old-established hotel.

A new building has recently been erected
which considerably enlarges the accommodation,
and enhances the comfort of visitors. The addi-
tions comprise a suite of Private Apartments,
commodious Bedrooms, a large Commercial
Room and Sample Room, making the Victoria
one of the largest and most comfortable hotels
in the province.

There is also an extensive range of Stabling
and Paddock accommodation attached.

Patent Medicine

"LOOK THEN INTO THY HEART
AND WRITE."

THE above sentence read carefully will tell all
that I could in a thousand lines, it adapts
itself admirably to a large number of cases
continually coming under my treatment.

Many who "Look into their hearts" at the
reading of this advertisement, and who ponder
over it, will say, I know I should write, for I
have a great secret there in my heart, hidden
deep down, and I fear every day something will
shortly show itself by some plain symptom and
make that secret known to my fellow men, and
cause me to be pointed at as an object of pity or
scorn.

"Look into thy heart" and say is it not better
for me to seek aid and get relief by writing to
one man in whom I have confidence, with whom
my secret is safe, and whose aid and counsel
will cause my life hereafter to be happy, making
me say with the proverb—"Rejoice, O, Young
Man, in thy Youth."

"Look then into thy heart and write,"
for hundreds have written to me when it
has been too late, and who, in place of having
"Children like olive-branches round about their
table," have their homes desolate, and feel it a
reproach upon their manhood to live.

"Look then into thy heart and write," and
remember that "As thy days, so shall thy
strength be," and that by writing down your
case, no eyes but my own see it, that relief men-
tally and physically can be given to you and
that in place of sinking into a dishonored and
premature death, you can feel that, in the words
of Wordsworth—"An old age serene and bright,
and lovely as a Lapland night, shall lead thee to
thy grave."

LOUIS L. SMITH.

NERVOUSNESS,
DEBILITY,

LOSS OF POWER,
INDISCRETIONS OF EARLY YOUTH,
&c.

In all the above cases, arising from error
and the yielding to the passions, no time should
be lost to at once arrest the progress of disease.

ALL CURES MADE EASY!

HOLLOWAY'S OINTMENT

Bad Legs, Ulcers, Sores, Bad Breasts, and
Old Wounds.

No description of wound, sore, or ulcer can re-
sist the healing properties of this excellent Oint-
ment. The worst cases readily assume a healthy
appearance whenever this medicament is applied;
a sound flesh springs up from the bottom of the
wound, inflammation of the surrounding skin is
arrested, and a complete and permanent cure
quickly follows the use of the Ointment.

Piles, Fistulas, and Internal Inflammation.

These distressing and weakening diseases may
with certainty be cured by the sufferers them-
selves, if they will use Holloway's Ointment, and
closely attend to the printed instructions. It
should be well rubbed upon the neighbouring
parts, when all obnoxious matter will be removed.
A poultice of bread and water may sometimes
be applied at bed-time with advantage; the most
scrupulous cleanliness must be observed. If
those who read this paragraph will bring it under
the notice of such of their acquaintance whom it
may concern, they will render a service which
will never be forgotten, as a cure is certain.

Rheumatism, Gout, and Neuralgia.

Nothing has the power of reducing inflamma-
tion and subduing pain in these complaints in the
same degree as Holloway's cooling Ointment and
purifying Pills. When used simultaneously, they
drive all inflammation and depravities from the
system, subdue and remove all enlargement of the
joints, and leave the sinews and muscles lax and
uncontracted. A cure may always be effected
even under the worst circumstances, if the use
of these medicines be persevered in.

Sore Throats, Diphtheria, Quinsey, Mumps,
and all other Derangements of the
Throat.

On the appearance of any of these maladies, the
Ointment should be well rubbed, at least thrice
a day, upon the neck and upper part of the chest,
so as to penetrate to the glands, as salt is forced
into meat. This course will at once remove in-
flammation and ulceration. The worst cases
will yield to this treatment if the printed direc-
tions be followed.

Scrofula, or King's Evil, and Swelling of the
Glands.

This class of cases may be cured by Holloway's
purifying Pills and Ointment, as their double ac-
tion of purifying the blood and strengthening the
system renders them more suitable than any
other remedy for all complaints of a scrofulous
nature. As the blood is impure, the liver, sto-
mach, and bowels, being much deranged, require
purifying medicine to bring about a cure.

Eruptions, Scald Head, Ringworm, and other
Skin Diseases.

After fomentation with warm water, the nt-
most relief and speediest cure can be readily ob-
tained of all complaints affecting the skin and
joints, by the simultaneous use of the Ointment
and Pills. But it must be remembered that al-
most all skin diseases indicate depravity of the
blood and derangement of the liver and stomach.
consequently, in many cases, time is required to
purify the blood, which will be effected by a ju-
dicious use of the Pills. The general health will
readily be improved, although the eruption may
be driven out more freely than before; and this
should be promoted. Perseverance is necessary.
